Program-Specific Outcomes
(PSOs)

PSOs are statements that describe what the graduates of a Specific engineering program should be able to do at the time of Graduation.

Department of Electronics & Communication Engineering

Program Specific Outcomes

PSOs are statements that describe what the graduates of a specific engineering program should be able to do at the time of graduation. There are three PSOs which are as follows:

- The ability to understand the principles in VLSI, Signal Processing, Communication, Embedded System & Control Engineering.

- To design, implement and test projects using the simulating software and hardware tools.

- To demonstrate the leadership qualities and strive for the betterment of organization, environment and society.
