Infrastructure Maintenance Policy

ITM Campus, NH-75, Opposite Sithouli Railway Station, Gwalior (M.P.) - 475001, India

E-mail: directoritmoffice@itmgoi.in, web: www.itmgoi.in

Introduction

1.

The Infrastructure Maintenance Policy of the **Institute of Technology and Management (ITM), Gwalior**, is meticulously designed to ensure efficient and effective management of the institute's infrastructure. This policy outlines procedures for maintaining, utilizing, and upgrading physical, academic, and support facilities. It aligns with ITM's commitment to sustainability and social responsibility.

2. Objectives

- **Regulatory Compliance**: Ensure that infrastructure maintenance and upgrades adhere to government regulations, building codes, and safety standards.
- Asset Preservation: Maintain equipment and assets to ensure longevity and prevent damage.
- Effective Maintenance: Properly maintain assets through timely repairs and replacements.
- **Sustainability**: Promote energy-efficient practices and sustainable materials to minimize environmental impact.
- **Cost Efficiency**: Make judicious decisions to prevent unnecessary expenses.
- **Transparency**: Maintain comprehensive records of maintenance activities, expenses, and work orders.

ITM Campus, NH-75, Opposite Sithouli Railway Station, Gwalior (M.P.) - 475001, India E-mail: <u>directoritmoffice@itmgoi.in</u>, web: <u>www.itmgoi.in</u>

3. Scope

This policy applies to the following areas:

• New Construction: Standards and procedures for new construction projects.

- Existing Facilities: Guidelines for the upkeep and repair of existing facilities.
- Electrical and Mechanical Systems: Maintenance of electrical systems and mechanical equipment.
- **ICT Infrastructure**: Management and upkeep of ICT infrastructure and related facilities.
- **Sports Facilities**: Maintenance of sports facilities to support student and staff activities.
- Green Spaces: Care and management of gardens and green spaces on campus.

4. Infrastructure Maintenance Types & Procedures

Maintenance encompasses essential tasks aimed at preserving or restoring buildings and equipment to their original state or a condition where they can effectively serve their intended purpose. By ensuring continuous campus operation, we uphold the functionality and safety of our facilities.

The institute conducts following types of maintenance.

1. Routine Maintenance

- * **Frequency**: Carried out regularly (daily, weekly, monthly, or annually).
- **Tasks**: Regular inspections and machine servicing.
- **Objective**: Identify issues proactively to prevent equipment failure.

2. Scheduled Maintenance

Time Frame: Fixed intervals.

ITM Campus, NH-75, Opposite Sithouli Railway Station, Gwalior (M.P.) - 475001, India E-mail: <u>directoritmoffice@itmgoi.in</u>, web: <u>www.itmgoi.in</u>

 Activities: Inspections, adjustments, regular service, and planned shutdowns.

* Purpose: Maintain optimal performance and extend asset lifespan.

3. Corrective Maintenance

- **Focus**: Rectify and repair faulty systems and equipment.
- **Goal**: Restore functionality after breakdowns.
- * *Note*: Corrective maintenance is also known as reactive maintenance.

4. Emergency Maintenance

- Immediate Response: Required for unexpected breakdowns or safety threats.
- **Priority**: Address health and safety risks promptly.

Our commitment to effective maintenance ensures a safe, functional, and sustainable campus environment. The table below presents the types and classifications of maintenance in the institute, along with an indicative description of works. All other maintenance related to ICT facilities, the library, and other support facilities can also be categorized according to this classification.

Types	Type of Maintenance	Description of Work	Frequency
	Scheduled Maintenance	 Annual Whitewashing Tank/Drainage Cleaning Roof Inspections Facade Maintenance Pavement and Road Repair Structural Inspections Septic System Maintenance Waterproofing Maintenance 	Every year
Civil	Routine/ Normal Maintenance	 Landscaping and Garden Areas: Regular maintenance, including pruning, planting, and fertilizing. Daily Cleaning: Cleaning of buildings, streets, and washrooms. Floor Cleaning and Repairs: Regular floor cleaning and minor repairs of flooring materials. Routine Inspections: Conducting routine inspections. Minor Repairs: Performing minor repairs. 	Daily

5. Maintenance Section

5.1 RESPONSIBILITIES OF THE CIVIL MAINTENANCE SECTION:

- Develop and implement a comprehensive maintenance plan, including routine, scheduled, and preventive maintenance tasks.
- Create a maintenance schedule that includes timelines for regular checks, repairs, and upgrades.

• Conduct regular inspections of campus buildings, roads, drainage systems, and other infrastructure to identify maintenance needs and potential issues.

- Monitor the condition of structures and facilities to ensure they meet safety and operational standards.
- Manage and oversee the repair and restoration of damaged or deteriorated infrastructure, including structural repairs, plumbing issues, and electrical work.
- Address corrective maintenance tasks that arise from inspections or reports.
- Prepare and manage the maintenance budget, allocating funds effectively for different maintenance activities and projects.
- Ensure all maintenance activities comply with safety regulations, building codes, and institutional standards.
- Maintain accurate records of maintenance activities, including work orders, repair histories, and inspection reports.
- Prepare and present regular reports on maintenance status, issues, and improvements to institute management.
- Respond promptly to emergency maintenance needs, such as repairs required due to unexpected damage or infrastructure failures.
- Develop and maintain emergency response procedures and ensure staff are trained in handling urgent maintenance issues.

By fulfilling these responsibilities, the Civil Maintenance Cell ensures that the institute's infrastructure remains in optimal condition, supporting the institution's operations and enhancing the campus environment.

ITM Campus, NH-75, Opposite Sithouli Railway Station, Gwalior (M.P.) - 475001, India E-mail: <u>directoritmoffice@itmgoi.in</u>, web: <u>www.itmgoi.in</u>

5.2 RESPONSIBILITIES OF THE ELECTRICAL MAINTENANCE CELL

The Electrical Maintenance Cell is responsible for managing and executing maintenance tasks related to the electrical systems within the institute. One faculty member from the Electrical Engineering Department and one senior electrical supervisor are assigned the responsibility to monitor the electrical maintenance work. The foreman, technical staff, electricians, etc., are appointed in the institute for the smooth functioning of electrical maintenance activities.

Here are the key responsibilities:

• Oversee the installation, operation, and maintenance of electrical systems, including lighting, power distribution, and backup power systems (e.g., generators and UPS units).

श्रेष्ठ इंडस्ट्री इन्टरफेस के लिए CMAI, AICTE & RGPV

द्वारा पुरस्कृत

- Conduct regular inspections of electrical infrastructure, including panels, wiring, and equipment, to identify potential issues and ensure compliance with safety standards.
- Address and resolve electrical issues as they arise, including repairing faulty wiring, malfunctioning equipment, and power outages.
- Ensure that all electrical maintenance activities comply with safety regulations, electrical codes, and institutional standards.
- Implement safety protocols to protect personnel and prevent electrical hazards.
- Manage the budget for electrical maintenance activities, including procurement of materials and hiring external contractors if necessary.
- Allocate resources efficiently and track expenditures related to electrical maintenance.

ITM Campus, NH-75, Opposite Sithouli Railway Station, Gwalior (M.P.) - 475001, India E-mail: <u>directoritmoffice@itmgoi.in</u>, web: <u>www.itmgoi.in</u>

\$\$\$\$\$\$\$\$\$\$\$\$\$\$\$\$\$\$\$

• Respond to electrical emergencies, such as power failures, electrical fires, or hazards, and coordinate repairs to restore service quickly.

श्रेष्ठ इंडस्ट्री इन्टरफेस के लिए CMAI, AICTE & RGPV

द्वारा पुरस्कृत

- Develop and maintain emergency response plans for electrical incidents and ensure that staff is trained to handle emergencies.
- Engage and oversee external vendors or contractors for specialized electrical maintenance tasks or repairs.
- Maintain accurate records of electrical maintenance activities, including work orders, repair logs, inspection reports, and system updates.
- Prepare regular reports on the status of electrical systems, maintenance activities, and any issues or improvements to institute management.
- Plan and implement upgrades to electrical systems to enhance performance, efficiency, and safety.
- Monitor and manage energy consumption to optimize efficiency and reduce costs.
- Implement energy-saving measures and technologies to support the institute's sustainability goals.

By fulfilling these responsibilities, the Electrical Maintenance Cell ensures the reliable operation and safety of the institute's electrical systems, contributing to the overall efficiency and safety of the campus environment.

5.3 RESPONSIBILITIES OF THE ICT MAINTENANCE CELL (IT CELL)

The ICT Maintenance Cell in an institute is responsible for managing and maintaining the institute's information and communication technology infrastructure. The ICT facilities are maintained by the System Analyst, who is supported by programmers and computer operators. The ICT Maintenance

ITM Campus, NH-75, Opposite Sithouli Railway Station, Gwalior (M.P.) - 475001, India E-mail: <u>directoritmoffice@itmgoi.in</u>, web: <u>www.itmgoi.in</u>

Cell operates under the supervision and guidance of the Head of the Department (HOD) of Computer Science and Engineering (CSE) and Information Technology (IT).

Here are the key responsibilities:

- Oversee the operation, management, and maintenance of IT systems, including servers, workstations, networking equipment, and software applications.
- Develop and implement schedules for routine maintenance tasks such as software updates, hardware checks, and system backups.
- Conduct regular reviews and maintenance of IT infrastructure to ensure reliability and performance.
- Troubleshoot and resolve technical problems promptly to minimize disruptions.
- Monitor system performance, including server health, network traffic, and application performance, to identify and address potential issues before they impact users.
- Implement and manage security measures to protect IT systems from cyber threats, including firewalls, antivirus software, and encryption.
- Regularly update security protocols and conduct vulnerability assessments to safeguard sensitive information and infrastructure.
- Ensure regular backups of critical data and system configurations to prevent data loss.
- Develop and maintain disaster recovery plans to restore systems and data in case of failure or data loss.
- Manage and maintain IT hardware, including computers, servers, printers, and network devices.

ITM Campus, NH-75, Opposite Sithouli Railway Station, Gwalior (M.P.) - 475001, India E-mail: <u>directoritmoffice@itmgoi.in</u>, web: <u>www.itmgoi.in</u>

• Oversee the installation, licensing, and updating of software applications and ensure compatibility with existing systems.

श्रेष्ठ इंडस्ट्री इन्टरफेस के लिए CMAI, AICTE & RGPV

द्वारा पुरस्कृत

- Maintain comprehensive documentation of IT systems, configurations, maintenance activities, and support requests.
- Plan and implement upgrades and enhancements to IT infrastructure to keep pace with technological advancements and institutional needs.

By fulfilling these responsibilities, the ICT Maintenance Cell ensures that the institute's technology infrastructure operates smoothly, supports academic and administrative functions, and meets security and performance standards.

5.4 RESPONSIBILITIES OF THE GENERAL MAINTENANCE CELL

The General Maintenance Cell in an institute is responsible for managing and overseeing a broad range of maintenance activities, ensuring the overall functionality, safety, and cleanliness of the campus environment. Here's a detailed overview of its responsibilities:

- Oversee the routine upkeep of campus facilities, including administrative offices, classrooms, laboratories, and recreational areas.
- Ensure that all facilities are clean, well-maintained, and functional.
- Coordinate and manage cleaning services for offices, classrooms, restrooms, and common areas.
- Address minor repair needs such as fixing damaged furniture, repairing doors and windows, and resolving plumbing issues.
- Handle basic maintenance tasks that do not fall under specialized maintenance categories.
- Maintain an inventory of general maintenance supplies and equipment, including cleaning agents, tools, and minor repair materials.

ITM Campus, NH-75, Opposite Sithouli Railway Station, Gwalior (M.P.) - 475001, India E-mail: <u>directoritmoffice@itmgoi.in</u>, web: <u>www.itmgoi.in</u>

\$\$\$\$\$\$\$\$\$\$<u>\$</u>\$

 Order and restock supplies as needed to ensure availability for maintenance tasks.

- Assist with the setup and rearrangement of furniture and equipment for events, classes, and other activities.
- Ensure that safety equipment, such as first aid kits and fire extinguishers, is available and functional.
- Work in coordination with civil, electrical, and ICT maintenance cells to address maintenance issues that require interdisciplinary support.
- Oversee waste disposal and recycling programs on campus to ensure proper management of waste materials.
- Address and resolve maintenance issues reported by users in a timely manner.
- Maintain records of maintenance activities, including work orders, completed tasks, and inventory usage.
- Prepare reports on general maintenance status, issues, and improvements for review by institute management.

By fulfilling these responsibilities, the General Maintenance Cell helps to ensure that the institute's physical environment is safe, functional, and conducive to the smooth operation of daily activities.

5.5 RESPONSIBILITIES AND ACTIVITIES FOR MAINTENANCE OF THE CENTRAL LIBRARY

The maintenance of the Central Library ensures that the library's facilities, collections, and services are well-maintained to support academic and research activities. The Central Library is looked after by the Librarian and other supporting staff for maintenance and enrichment.

ITM Campus, NH-75, Opposite Sithouli Railway Station, Gwalior (M.P.) - 475001, India E-mail: <u>directoritmoffice@itmgoi.in</u>, web: <u>www.itmgoi.in</u>

**

Here's a detailed overview of the responsibilities and activities involved in maintaining a Central Library:

- Regular inspection and repair of physical books and documents to address issues like torn pages, binding damage, and mildew.
- Ensuring that books and other materials are correctly shelved according to the library's classification system.
- Organizing materials to facilitate easy access and retrieval by users.
- Conducting periodic inventory checks to account for all library materials and identify missing or damaged items.
- Managing the acquisition and withdrawal of library materials, including processing new acquisitions and removing outdated or damaged items.
- Maintaining library computers, printers, scanners, and other technology equipment to ensure they are operational and updated.
- Performing regular software updates and security patches on library systems and databases.
- Training library staff on basic maintenance procedures and safety protocols.
- Ensuring staff are knowledgeable about the proper handling and care of library materials and equipment.

By focusing on these responsibilities and activities, the maintenance of the Central Library ensures that the facility remains a valuable and functional resource for students, faculty, and researchers, supporting the educational and research goals of the institute.

ITM Campus, NH-75, Opposite Sithouli Railway Station, Gwalior (M.P.) - 475001, India E-mail: <u>directoritmoffice@itmgoi.in</u>, web: <u>www.itmgoi.in</u>

6. Budget and Resources

• **Annual Budget**: Allocation of funds for routine, preventive, and corrective maintenance.

• **Resource Allocation**: Ensure availability of necessary tools, equipment, and materials for maintenance activities.

The policy outlines the budgetary provisions for maintenance activities, ensuring that sufficient funds are allocated to keep the infrastructure in optimal condition. Cost-effective measures will be implemented to avoid unnecessary expenses.

- The budget for repair and maintenance shall be prepared by the Maintenance In-Charge and submitted to the Director's Office for approval.
- All purchases made shall be recorded properly in the inward register for stock, and all materials used as part of repair and maintenance shall be recorded in the outward register, both maintained by the Store In-Charge.
- A record of the list of materials moving out from the central store shall be maintained by the Store In-Charge.
- The Security Supervisor shall verify the list of materials moving in and out of the campus against the list submitted and raise the gate pass accordingly.
- Departmental heads shall submit any requirements for labs and their consumables in the annual budget to the Director's Office.
- The budget will be placed in the Budget Allocation and Utilization Committee for approval.

ITM Campus, NH-75, Opposite Sithouli Railway Station, Gwalior (M.P.) - 475001, India E-mail: <u>directoritmoffice@itmgoi.in</u>, web: <u>www.itmgoi.in</u>

INSTITUTE OF TECHNOLOGY & MANAGEMENT

• Upon approval of the budget, quotations are invited from vendors, which are shortlisted and then approved by the Central Purchasing Committee.

• Items purchased are received by the Store In-Charge, who will make an entry in the stock register and forward the item to the requesting department/program. The requesting departments shall then make entries in their respective stock registers.

7. Safety and Compliance

- **Safety Standards**: Adherence to safety standards and regulations during all maintenance activities.
- **Compliance**: Ensure compliance with local, state, and national regulations regarding building maintenance and safety.

श्रेष्ठ इंडस्ट्री इन्टरफेस के लिए CMAI, AICTE & RGPV

8. Review and Improvement

- Annual Review: This policy will be reviewed annually or as needed to reflect changes in infrastructure, technology, and regulatory requirements
- Feedback Mechanism: Collect feedback from faculty, staff, and students to improve maintenance procedures and will be considered in updating the policy.

9. Conclusion

The Infrastructure Maintenance Policy is a cornerstone of ITM's dedication to fostering a safe, functional, and sustainable environment for its students, staff,

INSTITUTE OF TECHNOLOGY & MANAGEMENT

and the broader community. This policy underscores the institute's commitment to maintaining high standards in infrastructure management, ensuring that all facilities are well-maintained and resources are utilized efficiently. By adhering to this policy, ITM not only enhances the quality of life on campus but also promotes a culture of responsibility and sustainability. This comprehensive approach benefits everyone involved, from students and staff to visitors and the wider community, reinforcing ITM's role as a leader in educational excellence and environmental stewardship.
